

### DAMAGE TO CAPITOL NOT SO EXTENSIVE

FIRST REPORTS WERE EXAGGERATED.

Loss Will Not Exceed Forty Thousand Dollars, and Repairs Can Be Finished in Two Weeks, It Is Thought—Gas Explosion Caused the Wreck.

Washington, Nov. 7.—[Special]—The damage to the capitol building by the explosion of yesterday can be repaired in two weeks it is thought. The loss will not exceed \$40,000.

Washington, Nov. 7.—Shortly before 6 o'clock Sunday evening an explosion occurred at the capitol in the basement beneath the supreme court chambers and caused a fire which consumed a part of the congressional law library, a priceless collection, and destroyed the furnishings of the supreme court chamber. It was at first reported that the explosion was caused by an infernal machine, but it was more probably due to the ignition of illuminating gas. The entire fire department was called to the scene and rendered prompt and effective service. Enormous volumes of water were forced upon the flames and added materially

in this room are either totally destroyed or so badly injured by fire and water as to be useless. Justice Harlan said that while the loss of the records was irreparable, it was fortunate that the later records of the court, which are kept in the offices of the clerk on the main floor were not injured. As documents for reference at this time and later, Justice Harlan thought there were of far greater value than the records destroyed.

All the Quibbles Put in For the Purpose of Getting More Coin for the Concessions—The Difficulties Can For This Reason Be Surmounted.

Paris, Nov. 7.—[Special]—The position of the Spanish peace commission is rapidly becoming purely one of money. All the objections and counter proposals entered and submitted are evidently intended only to secure a higher price for the Spanish concession. It is therefore thought here that the end is in sight, as it is believed that all of Spain's scruples will be silenced by hard cash.

### WHEELER FIGHTS DAMAGE SUITS.

William G. Wheeler is the attorney of counsel for the city, hired by the common council, to help fight the damage suits, while his opponent is the attorney for the plaintiff in a suit against the city. Which man, therefore, can be expected to do the most, as a member of the assembly, to discourage the "damage suit industry?"

to the damage caused by the fire and explosion.

The explosion that started the fire was of terrific force. It shook the old north wing and tore asunder the foundation and basement walls until apertures in places are sufficiently large to receive the open hand. It is impossible to calculate the extent of the damage to the walls. A careful survey will be required before it can be ascertained how much rebuilding will be required, if any. The flames did no material damage to the walls. The furniture and hangings of the supreme court were destroyed and the law library damaged, but mostly by water. It will also require a close examination of the library to place the damage there. Owing to the fact that the walls of the building are of masonry the fire had nothing but the woodwork of furniture and fittings to feed upon, and was soon extinguished in the upper floors. In the basement there was a roaring volcano of flame, which seemed to be fed by gas.

There is reason to believe that the more important documents of the court have not been injured. The clerk's office was not touched by the explosion or by the flames, and in that room are all the more valuable papers of the court. They are not all in fire-proof safes, however, and it is merely a happy chance that has prevented the destruction of the documents on which the decisions of the first court of this country rest.

The office of the marshal of the supreme court suffered most. The floor was completely blown out of this room. Arranged on small pedestals around the supreme court chambers were busts of Chief Justice Marshall and a dozen other distinguished representatives of the legal profession who did much toward establishing and promulgating the legal precedents of the country. In the smoke and ruin which followed the explosion these valuable pieces of statuary were either partially or wholly destroyed, and with their destruction the country has suffered an irreparable loss.

The law library consisted of 75,000 volumes, many of them legal books of rare value, and a large percentage of the volumes cannot be replaced. The collection is estimated to be of the value of \$1,000,000, for such of these as might be obtainable, but the intrinsic value of the library is beyond estimation.

There is another valuable collection of books in the consultation chambers of the supreme court which also suffered great damage. The rooms comprising the consultation chambers are just across a narrow corridor from the supreme courtroom, and here more than 10,000 volumes were stored.

Mr. Justice Harlan said that the library was very valuable. Many of the works it contained would, he thought, be difficult to replace. Librarian Clarke, after a cursory examination necessarily made by the light of lanterns, expressed the opinion that many of the books could be saved, although they had been drenched by water from the streams poured into the library for two hours or more after the explosion occurred.

The most serious damage, in the opinion of the justices of the supreme court, is to the records stored in the sub-basement. These included all of the records of the supreme court from 1792 to 1832. The room contains records of cases and opinions rendered by the fathers of the judiciary of the country. Apparently the documents

By your vote tomorrow you will show whether or not you favor the administration of President McKinley. He should hear from Wisconsin "with no uncertain sound."

the republicans are concerned has passed, and now it is generally believed that a larger vote will be polled than is usual in off years. During the last two weeks there has been a great deal of work done by county committees, and reports from all sections of the state show a marked improvement in conditions.

At this time it seems almost certain that the republicans will win by a majority ranging from 30,000 to 50,000, and that every congressional district will send a republican to congress. The only districts about which there has been any doubt are the fourth district in Milwaukee city, and the second district, which comprises Dane, Columbia, Jefferson and Dodge counties. The latter two counties are normally strongly democratic.

### APPLEBY THE PEOPLE'S CHOICE.

No man in Rock County is better fitted for the office of sheriff than W. H. Appleby. He is a peace officer of years experience and his name inspires terror among the evil doers. His political opponents cannot and do not question his qualifications, nor deny that he will give the county better service in the trying position of sheriff than his opponents. The taxpayers want "the best man for the place" and that W. H. Appleby is that man is not denied.

The Sun Will Shine on the Voters Who Go to Cast Their Ballots.

Chicago, Nov. 7.—[Special]—Election day will be pleasant, the weather predictions for Wisconsin being "fair tonight and Tuesday."

next Tuesday negotiations will assume a different face—but the people and the army officers and the press think they know better. So in the cafes, the clubs and the daily papers one hears and reads nothing but violent declamation against American abuse of power. The tone of the press is still hopeful of saving the archipelago. Some of the papers advocate the recall of the Spanish commissioners without signing a treaty of peace. Others assert, with as much positiveness as bitterness, that the United States desires the islands only that they may be given over to Great Britain.

Nothing has transpired as the result of the Paris negotiations to hinder the breaking out of revolutionary movements. All who hope to further their ambitions at the expense of a distressed dynasty are as active as ever, the Carlists and Gen. Weyler foremost among the lot. Weyler is more close-mouthed than formerly. It is known that he is intriguing against the monarchy, but the plans he has formed are not divulged. His present secretiveness worries the ministry more than his former bluster, and Senor Sagasta is trying to come to an understanding with him. Senor Silveira, the conservative leader, also is trying to come to terms with the former governor of Cuba, while Polavieja, who holds aloof, in his loyal support of the queen regent and the king is losing ground in the popular opinion, despite the support of the court and the Jesuits.

The activity of the British admiralty and war offices in putting the fighting machinery of the empire in shape for instant use is regarded here as a covert menace to Spain and Portugal, under guise of determination to maintain British rights in the Nile country. The belief is general that Great Britain desires to enlarge her foothold on the Peninsula around Gibraltar at the expense of Spain, while taking over the Portuguese colonies in Africa. These colonies have an area of about 700,000 square miles and a population of between 4,000,000 and 5,000,000, and the suspicion that Great Britain has a greedy eye on them causes much ill feeling.

### PATRIOTIC SERVICE AT THE BAPTIST CHURCH.

Grand Army Post, Woman's Relief Corps and Volunteers Attended—Rev. A. H. Barrington Begins Sermons to Men—Rev. W. A. Hall's Theme—Other Religious Notes.

A "patriotic service" was held at the Baptist church yesterday, and the pastor, Rev. Arthur C. Kempton, preached on the theme, "The Price of Peace." W. H. Sargent, Post G. A. R. and the Woman's Relief Corps attended the service and also a number of ex-members of Company A. Music was furnished by a quartette.

Christ was wounded to save men, Mr. Kempton said. He welcomes those who have been wounded for the salvation of their country. "How great is the price of peace. The records of the past are written in blood. I think it not sacrilegious to apply this text to the brave soldiers who fought and bled for the peace of their country. At the beginning of the war Governor Randall protested to President Lincoln because Wisconsin was called upon to furnish only one regiment, but before peace was declared fifty-three regiments marched away from Wisconsin. Oh, let us remember what it cost! See the partings of those who loved each other. We can never, never understand it, unless we have passed through it.

War is one of the worst things ever experienced by man. There are wars that were started for selfish purposes, and were ignoble, but the war of '61 was for the welfare of a downtrodden race and it was noble upon the part of those who took part in it. The Union soldiers fulfilled this text by their suffering and being wounded for the good of others. They gave their lives that we might have peace, and God has given it to us for ever a generation.

What shall be done with this peace? If God is calling us to an enlargement of our responsibilities, may we bear them nobly and bravely for the good of others. May our nation be the good samaritan among the nations of the earth, the one that shall be used of God to uplift the fallen and bring peace to men.

At 7 p. m. the "People's Gospel Meetings" which proved so popular last winter, were renewed, with "Ten Minute After Meetings" in parlors.

Rev. Arthur H. Barrington began a series of sermons to men at Christ church last night, the theme being "Man Versus God."

The sacrament of the Lord's supper was administered at the close of the evening service at the Mary Kimball Mission last night.

### COURT STREET M. E. CHURCH

Rev. Walter A. Hall spoke at Court Street church yesterday morning on submission to God. The following is in part what he said. The suns burning constantly are not accidents. The worlds with their wealth of possibilities, moving in absolute accuracy did not happen. The steady come and go of season changes is not fictitious. There is a God. Indeed, as an independent being, he alone is: Who can measure his ascendancy? What other throne so tall, so abiding? What king can be likened unto him? He is in every footstep of progress. Nothing that we say happens, whether born of angel, man or demon, is without his vocation or permission. No proudest power can go one single step beyond his "No." To resist him is only insanity. To submit to him is the only wisdom. I am not going to tell you why you ought to submit to God. You already feel you ought, in every fiber of your being. I purpose this morning telling you some ways in which you can submit to God.

First, submit to God in His word. The bible may be on your table, may be in your hands, and open, and read, and read often, and yet be dead, confined and buried. Unless you submit to it, it is to you a sealed book. "He that will do my will, shall know of the doctrine," or teaching. God doesn't reveal Himself to unwilling souls. Submission is the key that unlocks the leaden casket. Having opened, you look in, and O, the splendid brilliancy of many-jewelled lustre, that not only glows but grows on your vision! Again, God in His word can do it, for and through you, only as you submit. Stony resistance receives no impression. Submission makes you wax to the heavenly impression. Continuing, Mr. Hall said that we ought to submit to God in His providence. As the river submits to its marked out channel, winding in all its windings, broadening as the channel broadens, taking the direction of it; so ought we to flow in the channel of God's providence, adapting ourselves to environment, murmuring never. Only so, can we be content; only so can God work in us the exceeding and eternal weight of glory. Concluding, Mr. Hall spoke of submitting to God in those sacraments and institutions, that are very evidently providence born and tended. Baptism, the Lord's Supper.

the prayer meeting were not of devil origin; they are God begotten. Submit to them. God's will concerning each of us is superlatively intelligent. It takes our individuality into fullest consideration. He expects of us only what by His grace we can be and do.

## THE DOUBLE TRACK IS NOW COMPLETE

### LINE LAID BETWEEN BARABOO AND CHICAGO.

Similar Improvement Being Rushed as Far North as Elroy and Even by the Omaha Road Clear on to St. Paul—Resulting Advantages Are Many.

A double track from Elroy to Chicago is a realization rapidly approaching the stage of materialization on the Chicago & Northwestern road. For many months the two-track system has been in operation between Madison and Baraboo, even to a siding a few miles north of that city; and very recently it has been completed from Madison to Chicago by the filling of a few short gaps here and there between those two points. The train service from Baraboo the entire distance so the western metropolis is now over the double track, and the simplification of operation is of course very great. A faster time schedule is likewise possible under the new conditions, transportation facilities are enormously augmented, delays due to waiting for the road to be cleared are an inconvenience wholly avoided and the record of collisions and other casualties is certain to be tremendously reduced. The traveling public, which chafes at delays and is timorous accidents, is especially interested in some of these advantages in which the Northwestern people now glory.

Closing the Gap.

The hiatus between Baraboo and Elroy is being rapidly closed up, and a double track to the latter place is assured by next July at the farthest. Work is humming all along the line north of Baraboo. Grading is being rushed, the right-of-way straightened and river-crossings and curves thus avoided; culverts and bridges widened to accommodate an additional track, hog-backs scraped down, depressions raised and much else being done not only in the interest of a double track but for the general improvement of the road-bed. By another independence day trains will be humming along on a double track all the way south of Elroy. Then the Omaha people to the north are also getting ready to meet the Northwestern, and the time is not far distant when the entire distance from St. Paul to Chicago will be spanned by a safety-giving double track.

## SELL WESTERN HORSES HERE

Equines from the Plains Bring Good Prices in Rock County.

The bringing of western horses into this section of the county seems to be a profitable plan. Several carloads of these horses have been disposed of in Janesville at good prices. But few of the animals were broken. Mel Conway, of the town of Fulton, is home from a summer spent on ranches owned by the Conway Brothers, in western Nebraska. He brought back with him three carloads, about seventy head, of horses from the ranch, which were taken to the Conway farm in Fulton, where they will be broken and prepared for market the coming winter. About twenty-five head of these animals were purchased in Rock county as colts three years ago and shipped west to develop on the range, and now come back matured horses.

### POLLS TO OPEN AT 6 A. M.

All Booths Will Be Kept Open Tomorrow Until 7 O'Clock P. M.

The polls will be opened in the several precincts throughout the city tomorrow morning at 6 o'clock, and will be kept open until 7 o'clock in the evening. This rule applies to all cities with a population of 5,000 or more. In towns, cities or villages with less than 5,000 inhabitants the polls will be opened at 9 o'clock in the morning and will be kept open until sundown, unless the common council, the town board, or the village trustees shall by resolution have fixed upon some earlier hour for opening the polls, and given ten days' notice of their action in some newspaper published in the county. It is provided, however, that the time for opening the polls shall not be earlier than sunrise. The inspectors of election are required to make proclamation of the opening and closing of the polls.

### ARE SHIPPING MANY CATTLE

Long Trains Pass Through the Bower City These Days.

The fall movement of live stock from the ranges in the west has begun and as usual a good share of the cattle from the plains of the northwest pass through this city. The local Northwestern and St. Paul yards have contained several trains of cattle of late that were shipped from the Dakotas and Minnesota. These live stock trains are all bound for Chicago. The shipping season has just commenced and a lively business is predicted.

## STAND BY THE PRESIDENT

William McKinley, President and Commander-in-Chief of the Army and Navy of the United States, represents today honest money and the credit, prosperity and progress of the country as much and more than he did in the memorable campaign of 1896.

Stand by the president in every state in the Union! Vote for men who will vote to sustain him! Vote for republican candidates for congress, and for republican members of legislatures that will elect United States senators! Vote for every candidate identified with the president's party!—N. Y. Sun.

## TOMORROW IS THE DAY.

Tomorrow is election day, and the people of Wisconsin will say, with their ballots, whether or not the good old Badger state shall stay in the republican ranks. There is no question as to their verdict. They will vote "to stay." The only point is the size of the plurality.

The people have confidence in the republican party. This faith is shown by the fact that during all the years since 1860, when the republican party first came into power in the nation, it has never been defeated at a presidential election but twice. It has grandly justified the wisdom of the people in keeping it in charge of its affairs. The record of the party is one of glorious achievements. Tomorrow the people of Wisconsin will have the opportunity of again showing their faith. Never has the party been called upon to perform more difficult duties. The administration has carried on a foreign war, and won it with remarkably small losses and expenditures. American arms never won a series of more brilliant victories on both land and sea, and both army and navy earned the plaudits of all civilization.

President McKinley has shown his statesmanship and judgment, and the brave sons of brave fathers have demonstrated what they can do when a wise hand guides the ship of state.

A vote for the republican ticket tomorrow is a recognition of these facts, while a vote for democracy will show a lack of confidence in the administration, and belief in the populist theories of the Chicago platform which is endorsed by Wisconsin democrats. The issue is republicanism versus populism; the American flag against its critics!

Stand by the president! Stand by the stars and stripes!

The democratic press is filling the air with attacks on "the corporations" yet corporations own about all the democratic papers in the state. No sane man is "opposed to corporations" unless the corporation is doing something wrong. Corporations are necessary for the welfare of the country, and, like any other business enterprises, should be encouraged. There are some corporations that need regulating, but to attack the many for the sins of the few, is silly. The republican party will attend to the ones that need attention.

No governor's administration was ever subjected to a more searching inquiry than that which Gov. Scofield underwent, yet fewer charges have been made against him by the democratic press, than ever before in the history of state campaigns. The democratic press was willing to attack Gov. Scofield, but they could find nothing of any consequence to howl about.

The republican party has lifted the country from the slough of despond to the pinnacle of prosperity. It has car-

ried on a war to a glorious conclusion. It has kept its promises and redeemed its pledges. Wisconsin republicans are proud of the record. They are proud of the fact that the fair Badger state is a republican commonwealth and will see to it that she remains in the republican column.

The democrats have campaigned against W. H. Appleby most industriously, but they do not—because they cannot—question his fitness for the place. Neither have they adduced a single good reason why he should not be sheriff. The voters will naturally bear these facts in mind when they go to the polls tomorrow.

The democrats admit that the charges they have made against the state administration are trivial. They admit that the campaign against the republican county ticket is shallow. Yet they have done the best they could. They had to keep the real issue—Bryanism and populism—in the back ground.

A republican senator should be elected by the legislature this fall. W. G. Wheeler will vote for a republican while his opponent would vote for a silver democrat. This fact alone assures Mr. Wheeler's reelection tomorrow.

Remember that President McKinley will be interested in the returns from Wisconsin. If you are "with the president" do not fail to register the fact by voting the straight republican ticket tomorrow.

Congressman Cooper is the personal and political friend of President McKinley and a vote for him is a vote for the president.

"Stand by the president!"

Don't forget to vote.

## A LIVING WITNESS.

Mrs. Hoffman Describes How She Wrote to Mrs. Pinkham for Advice, and Is Now Well.

DEAR MRS. PINKHAM:—Before using your Vegetable Compound I was a great sufferer. I have been sick for months, was troubled with severe pain in both sides of abdomen, sore feeling in lower part of bowels, also suffered with dizziness, headache, and could not sleep. I wrote you a letter describing my case and asking your advice. You replied telling me just what to do. I followed your directions, and cannot praise your medicine enough for what it has done for me. Many thanks to you for your advice. Lydia E. Pinkham's Vegetable Compound has cured me, and I will recommend it to my friends.—Mrs. FLORENCE R. HOFFMAN, 512 Roland St., Canton, O.

The condition described by Mrs. Hoffman will appeal to many women, yet lots of sick women struggle on with their daily tasks disregarding the urgent warnings until overtaken by actual collapse.

The present Mrs. Pinkham's experience in treating female ills is unparalleled, for years she worked side by side with Mrs. Lydia E. Pinkham, and for sometimes past has had sole charge of the correspondence department of her great business, treating by letter as many as a hundred thousand ailing women during a single year.

## CLOSING SPEECHES ARE MADE TONIGHT

### REPUBLICAN RALLIES ARE ARRANGED.

T. C. Richmond Upsets Democratic Calculation at Orfordville by Disagreeing with His Colleagues as to the Points at Issue—Meeting at Myers Grand—Political Notes.

The republicans will close their campaign tonight with a rally at the Myers Grand at which a number of local men will speak, among them Ogden H. Fether, M. G. Jeffries, John M. Whitehead, Captain Pliny Norcross and others.

T. C. Richmond, the Madison lawyer, spoke from a democratic standpoint at Orfordville Saturday night, and a special dispatch from that village to The Gazette said that he made many republican votes. Mr. Richmond's address differed radically from speeches heretofore made by the democrats. He said that there were only two issues in the campaign—tariff and free silver. He said it was not necessary to bring personalities and alleged state issues into the campaign, and then proceeded to enlarge on the tariff and silver issues. As every other democratic speaker has taken the opposite view of the case, Mr. Richmond's action was a surprise to his audience. Many voters afterward said that when Mr. Richmond admitted that silver and tariff were the issues, he also admitted that Gov. Scofield's administration had been all right, and they would vote the republican ticket as they did not care to support free trade and free silver.

Wallace Ingalls, the Racine lawyer, who recently spoke at Orfordville, made a deep impression on his audience, and Mr. Richmond's speech served to strengthen Mr. Ingalls' arguments.

#### Speeches Saturday Night.

Edward M. Hyzer argued for republicanism at Atton Saturday night and made a winning speech. He spoke at Lawton's hall, and had a large audience.

### A POPULAR STORE

Plenty of Reason Why Grocery Buyers Should Trade at Sanborn's.

The phenomenal growth of business at the Sanborn grocery in Janesville is accounted for in many ways. There is not a more complete grocery in southern Wisconsin than this and the prices are always low the year round. There is never a time when the purchaser cannot find hundreds of bargains of the very best order but for the sake of making cheap prices, the qualities are never tampered with. The purchasing of goods in such large quantities secures for Sanborn the lowest jobbers' prices. It is only reasonable to expect that carload lots of goods can be bought at less price than smaller quantities and Sanborn deals largely in car lots. In the past month over two cars of flour have been disposed of. Gold Medal and Jennison's Fancy patent flours have sold at \$1 per sack and are still going at that price. No better milling to be found in the country. Fancy new salt pork at 5 cents a pound or \$9.50 per barrel. Armour's best picnic hams 7 cents a pound. Japanese coffee at the same price. Ten bars of Cuba Libre soap for 25 cents and an illustrated naval portfolio free; this soap never sells for less than 5 cents a bar. Fancy 8 cent prunes at 5 cents a pound. Choice Carolina rice at 5 cents a pound. Very best ginger snaps 5 cents a pound. A box of twenty five good cigars for 50 cents and the choicest 5 cent cigars ever brought together in one case. We mention just a few of the hundreds of bargains in this mammoth stock. Every article is fully guaranteed to be exactly as represented. Sanborn is also pay agent for Cargill Bros., grain elevators. Checks are cashed at any time of day or evening.

#### Card of Thanks.

Janesville, Wis., Nov. 7, 1898.—We wish to express our grateful thanks to our neighbors and friends, who so kindly assisted us during the last illness of our beloved husband and father, and for the christian sympathy and cheerful assistance given us at his death and burial.

## LOAT IN ICY RIVER HANGING TO BOAT

### TWO LOCAL MEN HAVE A TRYING EXPERIENCE.

Arthur Huie and George Wood Cling to Overturned Craft and Call Vainly for Help, But Wind Finally Carried Them Onto a Stump—Lost a Fine Gun.

For one hour and thirty minutes yesterday afternoon Arthur Huie and George Wood clung to an overturned boat in Rock river. After drifting down stream for a mile, the wind blew them to a stump where they managed to cling until they were rescued.

Huie and Wood started yesterday morning about 6:30 in a sail boat. Their destination was to a point about four miles up the river near the "four mile bridge" where they spent the day in quest of game. When near Crystal Springs park on the return trip a strong wind struck them and before they realized the situation they found themselves in the cold water. The boat was upset

in an instant. Everything movable either floated off or went to the bottom. A valuable shot gun belonging to Huie was lost, but Wood's gun was in the end on the boat beneath the seat and was thus saved. The overturned boat was blown into mid stream, but both Huie and Wood managed to get hold of it.

Both men are good swimmers, but being heavily weighed down with rubber boots and heavy clothing, they did not attempt it. Thus they floated down stream for a mile, trying to attract attention of someone, until the wind finally carried them onto a stump. Wood managed to pull himself and Huie was one of the stumps, and after righting their craft, Wood went to shore and called assistance. Both men were taken to a farm house where they were cared for, given warm clothing and brought to this city.

Huie is the son of Mr. and Mrs. J. W. Huie, South Jackson street, and is employed by the Janesville Machine Co. Wood resides on South River street and is a carpenter by trade.

The team took fright near the Franklin Hotel, and ran to Wall street. In turning onto Wall street, Winters was thrown out. He had the reins around his waist, and was dragged on his back, for some distance, his head striking every obstruction on the road. The ambulance was called and took Winters to the Palmer hospital.

## BOYS ARE IN COURT AND ONE IS FINED

### HALLOWEEN PRANKS ARE THE CAUSE.

Mayor Thoroughgood Talks to Them After Judge Fifield Has Passed Judgment and Given Them a Severe Reprimand—Other Cases Passed Upon Today.

Six boys who were arrested charged with destroying property Halloween night, appeared in the municipal court this morning at 10 o'clock.

John Gately pleaded guilty and was fined \$1 and costs or a total of \$2.04 which was paid.

Leonard Fardy, Howard Horton, Louis Sheridan, George Robinson, and Ross Knox were discharged.

Gately admitted that he alone was responsible for the destroying of the tree in front of the George S. Parker residence. The other five boys said that they were in the party, as were many others on that night, but did no damage. The fine imposed was the minimum one. Judge Fifield also gave them a severe reprimand.

Mayor John Thoroughgood was present in court, and asked the court for permission to address the boys. His Honor then gave them some advice that they will do well to follow. He stated that the practice of destroying property must stop, and that people, on Halloween, in all parts of the city, had complained that they could not even sleep on account of the troublesome boys. He then informed them that there were others equally guilty but that those present had been arrested more to set an example than anything else.

#### Some Other Cases

Peter Sherer appeared in court this morning to answer to the charge of willfully and cruelly beating a dog. He pleaded not guilty and his case was adjourned until Nov. 10 at 9 o'clock.

Hugh Miller, drunk, was given a five day sentence in jail.

E. M. Haviland, charged with being drunk on Sunday, was allowed his liberty on signing the pledge that he never again indulge in intoxicating liquors.

J. Mayer, a druggist from West Virginia, arrived in the city Saturday for to visit his brother, Edgar N. Mayer, the alleged forger now in jail here. At the jail yesterday the brothers had a long talk and the prisoner was much affected when they parted.

Mr. Mayer is a well known business man in West Virginia. He says that his brother had always been a good reputation until his present trouble and that in his opinion Mayer had been misled.

## YOU CANNOT CURE PILES

## By Internal Remedies

The only way to cure piles in every form is to use a remedy like the Pyramid Pile Cure which is applied directly to the parts affected and its wonderful healing effects are felt on the first application because the medicinal properties are rapidly absorbed by the sensitive membranes of the rectum and the cure is speedily made, and almost before the patient is aware of it, every trace of piles has left him.

This is one reason why the Pyramid Pile Cure has been so successful. It is applied directly where it is needed and where it will do the most good. Not by the roundabout way of the stomach nor by the harsh, barbarous methods of various surgical operations and so called systems.

Its advantages over all other pile cures are these: It cures without pain, the cure is lasting, it contains no poison and is the quickest and cheapest cure yet found. It is made by the Pyramid Drug Co., of Marshall, Mich., and sold by all druggists at one dollar per package.

## MAY AVERT RACE WAR.

## Whites and Negroes Alike Will Avoid a Conflict on Election Day.

Wilmington, N. C., Nov. 7.—No race war is now expected to take place in this city on election day. There may be trouble of a more or less serious nature—indeed, the most hopeful citizens scarcely expect the day to pass without it—but that there will be a conflict between the two great forces facing each other in this crisis is regarded as altogether unlikely.

That this is true is due to the fierce determination of the white people and their open preparation for hostilities. The negroes are scared. Two weeks ago they are said to have presented a bold and united front, but today the courage is gone out of them and it is predicted that only a small per cent of their whole number will appear at the polls. Their leaders have decided to place no county ticket in the field and they have been given to understand that they will be allowed to vote only for the congressional nominees, yet the majority of them are thought to feel that their own homes will be the safest places for negroes on election day.

If a skirmish takes place it will be between disorderly whites on the one hand and the worst element of the blacks on the other. Any such outbreak will be promptly stopped by the good citizens.

## Army Bill to Be Rushed.

Washington, Nov. 7.—Friends of the Fourth Illinois regiment have been sending in anxious inquiries to Washington concerning the future of the regiment. The report that this regiment would be mustered out has again started the rounds, but the war department refused to confirm it and the statement was made most emphatically that there would be no orders issued for mustering out regiments until congress had passed the bill authorizing the recruiting of the regular army up to 100,000. The hitch in the peace negotiations in Paris due to the refusal of the Spanish commission to accept the American proposition concerning the Philippines has renewed the possibility of reopening hostilities and will result in hurrying the corps to Cuba earlier than was intended and in larger numbers than originally proposed. This move, it is said, will require the service of all the volunteers until congress has authorized the recruiting of the regular army up to 100,000.

## French Popular Opinion.

Paris, Nov. 7.—The newspapers here, commenting upon the announced intention of the French government to evacuate Fashoda, say they must wait for the declaration of the minister of foreign affairs, M. Delcasse, before pronouncing an opinion on the subject. But they point out that this check has caused a painful impression throughout the country. The ministerial policy announced by the premier, M. Dupuy, in the chamber of deputies, has been generally well received. The cabinet's policy of conciliation and its decision to end the attacks on the army, are approved and the chambers' endorsement of this policy also meets with approval.

## Appeal for a Cuban General

Havana, Nov. 7.—An appeal signed by a large number of Cubans has been presented to the United States evacuation commissioners begging them to intercede with the Spanish government for the release of the Cuban general Luis Rivera and the Cuban colonel Bacallao, his chief of staff, who in March of last year were captured by the Spanish general Hernandez de Velasco while operating with his column in the hills about Cabezas de Rio Honda.

# ELECTION NOTICE.

TO THE ELECTORS OF ROCK COUNTY:

OFFICE OF COUNTY CLERK.  
October 31st, 1898.

Notice is hereby given that a general election is to be held in the several towns, wards and election precincts in the county of Rock on the eighth day of November, 1898, at which the officers named below are to be chosen. The names of the candidates for each office to be voted for, whose names have been certified to this office, are given opposite the title of the office and under the appropriate party or other designation each in its proper column, and the questions submitted to a vote are stated below:

## INFORMATION TO VOTERS.

The following instructions are given for the information and guidance of voters: A voter upon entering the polling place, and giving his name and residence, will receive a ballot from the ballot clerk, which must have endorsed thereon the names or initials of both ballot clerks, and no other ballot can be used. Upon receiving his ballot the voter must retire, alone, to a booth or compartment and prepare the same for voting. A ballot clerk may inform the voter as to the proper manner of marking a ballot, but he must not advise or indicate in any manner whom to vote for. (If it be a general election these words are to follow: The voter, if he wishes to vote for all the candidates nominated by any party, should make a cross mark, X, under the party designation printed at the top of the ballot in the square made for that purpose. A ballot so marked and having no other mark, will be counted for all the candidates of that party in the column underneath, unless the names of some of the candidates have been erased, or a cross mark be placed opposite the name or names of candidates in another column, and will be counted for all names written in lieu of one erased. If the voter wishes to vote for some of the candidates of different political parties, he should make a cross mark, X, after the name of each candidate he desires to vote for.) If he wishes to vote for a person for a certain office whose name is not on the ballot he must write the name in the blank space under the printed name of the candidate for the office. The ballot should not be marked in any other manner. If the ballot be spoiled must be returned to the ballot clerk, who must issue another in its stead, but not more than three in all to any one voter. Five minutes time is allowed in booth to mark ballot. Unofficial ballots or memorandum, to assist the voter in marking his ballot, can be taken into the booth and may be used to copy from. The ballot must not be shown so that any person can see how it has been marked by the voter. After it is marked it should be folded so that the inside cannot be seen, but so that the printed indorsements and signatures of the ballot clerks on the outside may be seen. Then the voter should pass out of the booth or compartment, give his name to the inspector in charge of the ballot box, hand him his ballot to be placed in the box and pass out of the voting place. A voter who declares to the presiding officer that he is unable to read, or that by reason of physical disability, he is unable to mark his ballot, can have assistance of one or two election officers in marking the same, to be chosen by the voter, and if he declares that he is totally blind he may be assisted by any person chosen by him from among the legal voters of the voters of the county. The presiding officer may administer an oath, in his discretion, as to such person's disability. The party designations and candidates for the different offices are, for example, as follows:

W. J. McINTYRE, County Clerk.
